

Pearson BTEC Level 3 Extended Diploma in IT

ABOUT THIS COURSE

The Pearson BTEC International Level 3 qualifications in Information Technology are designed for learners who are interested in the study of information technology, with a view to progressing to a range of graduate entry higher-education courses and/or working within the IT industry on completion of this qualification. Learners will have exposure to a wide range of IT topics that will enhance their progression to higher education in this sector, a complementary sector or a contrasting sector and ultimately lead to employment.

The Pearson BTEC International Level 3 Extended Diploma in Information Technology provides students with useful foundations for a successful career in computing technology. Equivalent to three A-levels, this course has been developed as a gateway to the IT sector. Students gain an understanding of computer software, web development, server, cloud, database, maintenance and networking.

Duration : 12 Months

Fees : AED 35,000 Full Course
